In the midst of a vibrant and growing community, The Goffstown Covered Bridge reminds us of the tranquility of earlier times. Cover photo — courtesy of Henry Moquin.

# DEDICATION

3521  
G61  
112

Each year in the Annual Report, the Selectmen express appreciation to the many Boards and Committees that are made up of people who give so freely of themselves in behalf of the community.

This year we would like to dedicate the 1972 Annual Report to all the people who serve on the Boards and Committees, which in turn serve our community so well.

We can reflect on the struggle of peoples to gain the right to govern themselves in our history. However, much perseverance is needed to perform the required tasks of self-government. There are few "heroes" evolving from this process in government on a local level. These are the people who have to answer the demands of a growing community, are criticized by their fellow citizens, are late for supper and out late evenings instead of watching television, bowling or whatever interest they might pursue in their leisure hours.

For these sacrifices, and the many others you are required to make, we are sincerely appreciative and therefore dedicate this report to you.

Mr. Lawrence Shirley who this year resigned his position as chairman of the Goffstown Planning Board. He was awarded the Andor J. Staby Memorial award for outstanding service to the So. N.H. Planning Commission.

Due to a lack of photographs, all those who so unselfishly give of their time to the town of Goffstown are not shown here. We apologize if you are not pictured here, but we want you to know how greatly we appreciate your efforts in behalf of the town.

# SELECTMEN

The year 1972 brought to Goffstown several new things. Perhaps the one least expected by most people was a drop in the tax rate for the Town segment of government by forty cents per thousand. The reasons for this reversal in the trend of constantly rising taxes are many but possibly it could be summed up by saying "We must be doing something right."

Generally, when a tax rate goes down there is an accompanying cut-back in services. However, this was not the case in Goffstown during 1972. For the very first time Goffstown has had a full time community recreation director. The Parks and Recreation Commission report can be found in this book for all the pertinent particulars, but we feel that the presence of this director certainly

adds to the quality of life in Goffstown.

Our highway program has continued and is really beginning to take shape. Many of you can look out the windows of your homes and see the benefit of this program and more will be able to do the same thing next year. We have come to accept as part of our way of life, the superior job that Joe Perry and our highway crew do on our roads during the winter.

This year the effectiveness of our fire department was severely tested at the Maple Avenue fire. The way it responded was a testimonial to the hours they spend training and the dedication they have for this volunteer service.

Our police department also had the experience of having to rise to the occasion during the Maple

Avenue fire and experienced a tremendous increase in the daily work load.

The effectiveness of our Planning Board and Board of Adjustment really came into focus this year as we certainly are growing with over \$3,000,000 in estimated cost of building.

We, the Board of Selectmen extend our thanks and appreciation to the Town personnel and especially to the department heads for their efforts put forth in 1972 and the results they have produced.

As we look ahead for 1973, we hope to have more people involved in Town government and we will continue our efforts toward a healthy broadening of our tax base so that the home owners will be able to share the tax burden.

Left to Right: Roger Dubreuil, Robert Wheeler-Chairman, Henry Grady.

George T. Aimo  
Town Clerk, Goffstown

# TOWN WARRANT

To the inhabitants of the Town of Goffstown in said County of Hillsborough in said State, qualified to vote in Town Affairs and to the inhabitants of the School District in the Town of Goffstown qualified to vote in School District Affairs:

You are hereby notified to meet at the Goffstown High School in said Town on Tuesday, the 6th of March at seven o'clock in the forenoon, to act on the following subjects:

The polls will open at 7:00 A. M. and close at 6:30 P. M. at the Central Polling Place and will open at 7:00 A. M. and close at 6:30 P. M. in the Fifth District Bartlett School.

You are hereby notified to meet at the Goffstown High School, Saturday, March 10, 1973 at 1:00 P. M. where the business meeting will take place.

None of the articles in the warrant, except those relating to the election of officers and those covering questions on the ballot shall be considered during the time that the polls are open.

1. To choose all Town Officers, Trustees and Commissioners, and School District Officers for the ensuing years, including a member of the Board of Selectmen for three years.

2. To see if the Town will vote on the question of "Shall the Australian Ballot System for the election of town officers be adopted by this Town?". (By Official Ballot).

3. To see if the Town will vote to adopt the Boca Book National Building Code. (By Official Ballot).

4. To see if the Town will vote to amend the Goffstown Zoning Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by changing the classification of property identified as Map 18, Lot 61, Mast Road, Pinardville, from Residential (RA) to a classification of Commercial. Said amendments are on file with the Town Clerk. (By Official Ballot).

5. To see if the Town will vote to amend the Goffstown Zoning Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by changing the classification of property identified as Map 28, Lot 23, Goffstown Back Road, Grasmere, from Residential (RA) to a classification of Commercial. Said amendments are on file with the Town Clerk. (By Official Ballot).

6. To see if the Town will vote to amend the Goffstown Zoning Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by changing the classification of property identified as Map 18, Lot 58B, Mast Road and Moose Club Park Road, Pinardville, from Residential (RA) to a classification of Commercial. Said amendments are on file with the Town Clerk. (By Official Ballot).

7. To see if the Town will vote to amend the Goffstown Zoning Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by changing the classification of property identified as land bounded on the West by N. H. Route 114, on the North by St. Anselm's Drive, on the East by Tirrell Hill Road and on the South by the Town of Bedford, from Residential (RA) to a classification of Commercial. Said amendments are on file with the Town Clerk. (By Official Ballot).

8. To see if the Town will vote to amend the Goffstown Zoning Ordinance and Maps as adopted at the Town Meeting March 14, 1961, and subsequently amended by deleting and amending Article V, Section A. Part 4.a (1) (2) and (3). Said amendments are on file with the Town Clerk. (By Official Ballot).

9. To see if the Town will vote to authorize the Selectmen to borrow from time to time, such sums

of money in anticipation of taxes as may be needed to meet the necessary running expenses of the Town.

10. To see if the Town will vote to authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Tax Collector's deed, purchase, prescription or gift.

11. To see if the Town will vote to appropriate One Hundred Sixty Thousand (\$160,000.00) Dollars to install a water main on Mast Road and Daniel Plummer Road. Said sum to be withdrawn from the Revenue Sharing Fund established under the provision of the State and Local Assistance Act of 1972. (Recommended by the Budget Committee).

12. To see if the Town will vote to raise and appropriate the sum of Forty Thousand Eight Hundred (\$40,800.00) Dollars to employ nine (9) full time firemen. (Without recommendation of the Budget Committee).

6 13. To see if the Town will vote to raise and appropriate the sum of Five Thousand \$5,000.00) Dollars to be held in a capital reserve fund to provide capital funds for lands for public use, such fund to be administered by the Conservation Commission. (Establish capital improvements program that will in twenty (20) years provide a fund of \$100,000.00). (Inserted by Petition). (Without recommendation of the Budget Committee).

14. To see if the Town will vote to raise and appropriate the sum of Seventeen Thousand Six Hundred Twenty-Three and 15/100 (\$17,623.15) Dollars for the creation of a Crossing Guard Program for Goffstown, contingent upon approval of fifty (50%) per cent for the first year by Federal funding. (Without recommendation of the Budget Committee).

15. To see if the Town will vote to adopt the budget as submitted by the Budget Committee in the amount of One Million Three Hundred Sixty-Seven Thousand Six Hundred Thirty-One and 03/100 (\$1,367,631.03) Dollars and raise by taxes the sum of Eight Hundred Sixty-Three Thousand

Eight Hundred Seventy-Two and 03/100 (\$863,872.03) Dollars. (County Tax not included). (Recommended by the Budget Committee).

16. To see if the Town will vote to direct the Selectmen of this Town of Goffstown to administer this year's (1973) budget and all future budgets for all departments of the Town on a line item basis. (Inserted by Petition).

17. To see if the Town will vote to establish a five (5) member Police Commission and a five (5) member Highway Commission to oversee each department and make recommendations to the Selectmen. They will be appointed by the Town Moderator the first year and elected the same as Fire Wardens at Town Meetings thereafter. (Inserted by Petition).

18. To see if the Town will vote to use Revenue Sharing Funds for the purpose of reducing the tax rate. (Inserted by Petition).

19. That all dogs in the Town be restrained by their owners from running free in the streets, neighbors' gardens and lawns. (Inserted by Petition).

20. To see if the Town will vote to raise and appropriate the sum of Five Thousand Four Hundred Nine and 80/100 (\$5,409.80) Dollars to install 600 feet of under-drainage on Louis Street. (Inserted by Petition). (Not recommended by the Budget Committee).

21. To see if the Town will vote to raise and appropriate the sum of Seven Thousand Eight Hundred Thirty (\$7,830.00) Dollars (said money to be taken from the Town's Federal Revenue Sharing Fund); this sum being the Town's share of the Meals-on-Wheels program which is sponsored by the Community Action Committee for Hillsborough County. This sum of money would provide two (2) home delivered meals, five (5) days a week, to homebound elderly and those non-elderly recuperating from illnesses. Also, social contact, referral and emergency transportation will be provided for those participating in the program. (Inserted by Petition). (Not recom-

mended by the Budget Committee).

22. To hear the reports of Town Officers, Auditors and Committees and to pass any vote relating thereto.

23. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 14th day of Feb. 1973.

Robert Wheeler  
Henry Grady  
Roger Dubreuil  
Selectmen

# POLICE DEPARTMENT

The Goffstown Police Department experienced another year of continued increases in crime and activity. The demand upon the department for more services is reflected in a 14.5% increase in the Serious Crime Index, a 16.65% increase in the General Crime Index, and a 26.9% increase in the Serious Accident Index. The burglary rate decreased 14.2%, although the actual burglaries experienced during the year were down only 3.58% (discounting attempts and unfounded reports); residential burglary increased 28.1%.

Fortunately there were no fatal accidents again this year; however, the accident rate increased by 22.6%. There was a significant increase in the severity of accidents.

Complaint-activity load increased 8.83% as compared to a 25.2% increase the previous year, making the total increase in activity since 1970 approximately 34%. During the period, the number of full-time police officers remained the same.

Evaluation of statistics for the year 1972 caused concern in several important areas. Pedestrian and bicycle accidents increased 122% while hit and run accidents increased 63.4%. Crimes against property maintained high growth levels; malicious property damage increased 44.4%; larceny increased 22.5%; and malicious mischief increased 76.5%.

Police time expended on non-criminal matters such as dog complaints and courtesy calls increased greatly with percentage differences of 47.4% and 57% respectively.

Arrests were up 32% generally; criminal arrests increased 47.4% while motor vehicle arrests increased 20.4%. Unfortunately, 49.4% of all arrests for 1972 were of young people between the ages of 15 and 22.

## FACTS AND FIGURES:

The following table represents pertinent statistics recorded and evaluated by the Goffstown Police Department:

Chief of Police, Robert J. Wike

Dick Sexton, Communications

Category	Number 1972	Percentage Difference From 1971
Accidents		
Reported	413	+22.6%
Complaints	3652	+ 8.83%
Accident Injuries	77	+22.2%
Burglaries	103	-14.2%
Malicious Property		
Damage	208	+44.4%
Larceny	272	+22.5%
Motor Vehicle		
Complaints	460	+45.6%
Courtesy Calls	259	+57.0%
Dog Complaints	314	+47.4%
Hit & Run Accidents	67	+63.4%
Messages Handled	93,774	+50.3%
Mileage Covered	160,504	+ 5.33%

## IMPROVED SERVICES:

Training remained as one of the priorities during 1972, with the continuation of programs that were initiated in previous years. The department believes that increased training is responsible for the success realized in dealing with many of the

contemporary law enforcement problems.

The County Communications System continued to grow in utilization as did the rent Goffstown received from Hillsborough County for the maintenance of such service.

The increase in accidents has required greater utilization of the Accident Investigation Unit. Increased evidence of lives saved by this unit is now available and underscores the importance of the program.

The Mobile Crime Scene Search Van acquired without town appropriations last year has been credited with allowing the capacity to acquire various types of evidence leading to the solution of serious crimes. The increased capability afforded by such vehicle has pointed out the importance of maintaining scientific approaches to crime investigation. The vehicle is available to other communities on a compensatory basis.

The initiation of a serialization of property program, termed R.A.S.P., has been disappointing. The department hopes that more citizens will participate in the program during the coming year.

Chief Robert Wike, and the staff and personnel of the Goffstown Police Department, extend thanks to the citizenry of Goffstown for their continued support, and look forward to another year of continued cooperation.

# FIRE DEPARTMENT

## NEEDS OF THE FIRE DEPARTMENT

During the working hours of the day firemen are scarce. An average was taken for available firemen answering alarms the past three years. During the hours of 7:30 am to 5:00 pm there was an average of 5 men answering the alarm. Of these, one has to stay at the fire station. Owing to this shortage of man power the fire department has been asking for permanent men. With the exception of the two men hired in 1970, our other requests have always been denied.

This shortage of man power is not just a local problem, it is nation wide.

You will notice an article in the 1973 Town Warrant that the department is requesting that 9 additional men be added. This will man each station with 4 men from 7:30 am to 5:00 pm (9½ hrs. each day) 7 days a week. Past experiences of other fire departments, these men can take care of 75% of all calls, using the call men for larger and more serious fires.

The Maple Ave. apartment fire, the proposed apartment buildings to be built and those already under construction stress this need for more permanent men.

With one exception fire losses for the year 1972 were held to a minimum. The King apartment building was the worst fire for many years.

We certainly want to thank the volunteer firemen for the extra fine effort which they made on the tragic occasion of The Maple Avenue Fire. It is gratifying to witness such an open demonstration of people unselfishly helping people.

### Break Down of Fire Dept. Activities During 1972

Building fires	16
Brush & grass	20
Car fires & accidents	33
Dump	1
False	9
Resuscitator	3
Bomb scares	2
Assistance to other Towns & Cities	7
Miscellaneous	12
Total	103

Estimate of property involved	\$161,600.00
Estimated loss	160,100.00
Covered by insurance	160,500.00
Losses paid by Insurance	160,780.00

Business & commercial inspections	4
Day Care & Foster Home inspections	11
New oil burner inspections	38
Burning permits issued (1972)	174
Business & training meetings	93
Hours spent by firemen on training	1991

Training was held at the Bel-Air Nursing Home for all personnel by Capt. Jenkins and Chief Morgrave.

# HIGHWAY DEPARTMENT

In 1972 the Goffstown Highway Dept., had a very busy season, with the regular maintenance of the roads, cemeteries, sewer and sanitation departments, and other projects that had to be done in conjunction with private contractors, etc. The months of January, February, March and November and December of this year were extremely hard and costly, due to heavy snow and heavy rains coupling to make icy conditions and therefore create problems that are not normal. This has been, beyond any doubt, the costliest year for snow and ice and water removal that we have encountered for some time. During these bad months over 4000 Cubic yds. of sand was used on our approximately 136 miles of roads and sidewalks. This cost is not over as this sand must be swept up in the spring. We also used much more salt in combatting the icy conditions than usual, for a large increase financially. People today will not tolerate icy roads, so after trying all the ways to remove snow and ice, the only answer at the present time is the use of salt and it must be used in sufficient quantities to do the job or it is completely wasted. Sand and salt mixture is very good, but only covers and hides the ice. As long as people want to drive on bare roads, then it will cost plenty. We have tried leaving some snow on some roads by doing less salting and more sanding. Eventually people call and want the roads bare, so the only alternative is to do the job by whatever means are at hand and try to keep costs down at the same time. When people want the service, then somebody has to pay for it.

The mechanical work for the department is done by the regular help as we have no mechanic.

Approximately 1500 feet of culvert was installed in various places this year.

Extensive work was done at the Sanitary Landfill to correct deficiencies to satisfy the land owners; loaming, seeding, and cleaning up the area.

The sludge beds at the sewer plant were cleaned and regraded again, which is routine and takes us four or five days to complete.

Libby Street extension was widened to town specifications with removal of 400 cu. yds. of material and 300 cubic yds. of gravel hauled in so this will be ready for paving in 1973.

The following gravel roads were gravelled this year: Way-Back Farm Rd., 1400 cu. yds., Hoyt Rd., 510 cu. yds., Pollard's Cross Rd., 854 cu. yds., Grady Hill Rd., 399 cu. yds., Hooksett Hill Rd., 287 cu. yds., Weilbrenner Rd., 112 cu. yds., Plimpton Rd., 133 cu. yds., Sawyer Rd., 14 cu. yds., Walnut Hill Rd., 371 cu. yds., Laurel St., 210 cu. yds., Wallace Rd., 21 cu. yds., Holly St., 224 cu. yds., Bog Rd., 371 cu. yds., Lynchville Pk. Rd., 245 cu. yds., Tenny Rd., 217 cu. yds., Up-A-Way Farm Rd., 56 cu. yds., Hamlin St., 21 cu. yds., Pine Grove Ave., 56 cu. yds., Bay St., 147 cu. yds., River Side Dr., 224 cu. yds., Chip St., 62 cu. yds., Chatel St., 161 cu. yds., River View Pk., 126 cu. yds., Danis Pk. Rd., 140 cu. yds., Sewer Plant (Sludge Beds), 168 cu. yds., Back Rd., 280 cu. yds., River Side Dr., 35 cu. yds., Joppa Hill Rd., 406 cu. yds., Violet St., 70 cu. yds., Pershing St., 42 cu. yds., Foch St., 189 cu. yds., Pine Crest Dr., 336 cu. yds., Autumn St., 77 cu. yds., Hermsdorff Ave., 70 cu. yds., Hunter Court, 231 cu. yds., Martels Pk. Lot, 105 cu. yds., Elm St., 98 cu. yds., Center St., 98 cu. yds., Locust Hill, 14 cu. yds., Greer Rd., 14 cu. yds., Merrill Rd., 70 cu. yds., Tibbetts Hill 28 cu. yds., Gorham Pond Rd., 91 cu. yds., Worthly Hill Rd., 14 cu. yds., using approximately 8827 cu. yds., from our new gravel pit and used on a regular program, including numerous small projects, shoulder refilling due to rain washouts, etc.

All our gravel roads were oiled for dust control again this year using 19,750 gallons, a cost of \$1500.

Brush and tree cutting is continuing as time permits, particularly on the school bus routes.

Hot top shim and/or paving was done on the following roads: Lucille Dr., 178 tons, Raymond Rd., 126 tons, Town Parking Lot, 73 tons, Woods Circle, 99 tons, Pinecrest Dr., 317 tons, Hermsdorff Ave., 116 tons, Hunter Court, 144 tons, Wallace Rd., 1663 tons, Fairview St., 120 tons, Libbey St., 252 tons, Foch St., 422 tons, Pershing St., 335 tons, Mountain Rd., 549 tons, Mill St., 125 tons, Gorham Pond Rd., 245 tons, Paige Hill Rd., 715 tons, Locust Hill Rd., 211 tons, East Dunbarton Rd., 449 tons, West Union St., 162

tons., Kings Ranch Rd., 100 tons, Montolona Rd., 162 tons, Addison Rd., 270 tons, Shirley Hill Rd., 109 tons, Rundlett Hill Rd., 235 tons, Walnut Hill Rd., 254 tons, Merrill Rd., 497 tons, Heatfield Rd., 85 tons, Normand Rd., 300 tons, Bog Rd., 305 tons. Odd jobs, Drive Approaches etc., 1210 tons, approximately total of 9420 tons used.

Approximately 21 miles of road were hot top shimmied or paved, or both in some cases this past year. It is hoped we can continue at the present pace until all our roads receive at least one coat of hot top. \$91,845.00 was spent plus \$1,100.00 more used in conjunction with patching using hot top instead of cold patch.

During breaks between jobs the Highway Dept., took it upon itself to build a four-bay pole shed to house some of our equipment. Thanks to the generosity of the Utility Companies who gave us poles enough to do the job and even loaded them for us, we were able to save considerable money for materials used in framing and supporting. We dug the holes ourselves, used gravel from our own pit, traded lumber to have our own lumber sawed over a two year period, which came from our gravel pit area. These bays are equipped with lights and heating plugs for the truck engines. The size of the building is 35 ft. deep, 54 ft. long, and 14 ft. high at the front, 11 ft. high at the rear. The cost breakdown is as follows: 50 lbs. 20d nails \$8.75, 100 lbs. of 40d nails \$19.00, 28 pieces of 2" X 8" X 16' \$114.34, 45 lbs. of 10d nails \$13.54, extra wire and electrical fittings \$65.35, one 5 gal. roof mastic \$5.00, corrugated metal roofing \$550.00, 10 gal. of brown paint \$49.50, saw filing \$12.00 for an approximate total cost less labor, of \$837.48. Tools and some nails were furnished by our own men at no cost.

New projects for the coming year are to install new under drainage and rebuild Elm St. from the library to the Maple Ave. area which should finish this project.

New Boston Road needs underdrainage and some sections rebuilt and repaved.

St. Anselm's Drive needs rebuilding starting at the intersection of Daniel Plumber Rd., and continue to College Road. Keeping in mind it costs approximately \$30,000 per two lane mile to reconstruct on T.R.A., the Highway Dept. feels it is best to go until this year's finances run out and do these jobs in two or three steps if necessary

rather than accelerate our T.R.A. programs.

It is also hoped to start some sort of a bridge repair program if money is allocated. The State Highway has inspected our bridges and made recommendations for each, so the highway dept. would like to get started with those that are in the worse shape. These would be in the form of small contract jobs.

There is still more guard rail work to be done on the Goffstown Back Rd. and other areas. Signs are also a very large item as sign vandalism has tripled the last two years. The usual repair and painting of our equipment will be done.

The Highway Dept. wishes to thank the taxpayers for their help and consideration especially during the winter months; the Fire and Police Dept., and the office girls for their patience with us during the many trials and tribulations. To all we say THANK YOU.

To the wives and families of the Highway Dept., I say thank you for your sacrifice as your husbands worked during the holidays so that others using our roads might do so in safety.

To the selectmen, this Department acknowledges with gratitude your untiring efforts in our behalf and thank you for the way problems were handled that came up this year.

And to my employees, thank you gentlemen for a job well done throughout this past year.

Joe Perry

Road Agent.

# LIBRARY

## GOFFSTOWN PUBLIC LIBRARY

### Library hours:

Monday-Friday	11 a.m.-5:30 p.m.
Monday-Wednesday-Friday	6:30-8:30
Saturday (school months)	10 a.m.-12 p.m.

### Librarian's Report

The adult section of the library got special attention during the past year. By adding some new shelves it was possible to gather all the adult fiction except mysteries and westerns in the south room. At the same time the non-fiction collection was gathered in the area behind the charging desk. This makes it easier for patrons and personnel to know where to go when looking for a book.

Another major project was a complete index of our short story collection — some 1700 cards — which were then filed into the card catalog.

For appearance sake many of the extra large books have been moved to a special shelf and their catalog cards marked accordingly.

This year saw the initiation of weekly film programs at the Hillsboro County Home, using the free films available through the state library.

The schedule was expanded in September to reach the minimum standards of the statewide library development program. We are now open 40 hours per week, including three evenings.

For the first time in recent memory the Encyclopedia Britannica was added to our reference collection; an assortment of National Geographic maps was filed for your use; many worn out but still popular books were replaced with good used or new copies; and several non-book items were given to the local historical society to assist them in their beginnings.

Plans for this year include an indexing of our children's story collection; a search for ways and means of expanding services to the growing community; and periodic annotated lists of the new books acquired during the year.

The librarian wishes to thank all those who have volunteered their services from time to time. A special word of thanks is due the Unity Club and the Shirley Club for their continued interest and gifts to the library.

## TRUSTEES REPORT

The Goffstown Library gratefully acknowledges the services and gifts of various clubs and townspeople during the past year. Many books were donated including several hundred paperbacks. This paperback collection was started by our librarian Mr. H. Donley Wray last year and it has been very successful in supplementing the reading material for both the young adults and adults.

This year the "Friends of the Library" have been very active. They held a book sale and raised money to buy a new vacuum cleaner. This summer they assisted in the summer reading program for children and recently they judged a very successful poster contest during Children's Book Week. These activities have helped gain the interest of many children in our library. Right now the Friends are busy sorting out and putting in order our magazine collection stored in the basement. They are compiling a numerical register of children's names to help Mrs. Elliot in the children's room and they are serving as readers for clippings suitable for the pamphlet file. The trustees appreciate all the time, help and money they have given us.

During the past year we had an open house for the new Children's Room and Conference Room, we sponsored the "Little Red Wagon" group from UNH this summer which presented a puppet show for children and we were able to add several free standing shelves to the adult reading room.

We commend our librarian, Mr. H. Donley Wray, for his great interest in the library and his many activities to help bring more reading to those outside the library and to interest children in the library. Besides his many hours spent in Goffstown he also serves as Vice Chairman for the South East District Advisory Council. We also commend Mrs. Thomas Elliot, our children's librarian, and the rest of the staff for their untiring and conscientious services.

# CONSERVATION COMMISSION

The eight year old Goffstown Conservation Commission, organized according to State Statutes, meets at the Town Hall the first Monday of each month. As all its activities encompass all parts of the town for the preservation of natural, scenic or cultural areas, participation of interested citizens is welcomed.

As in previous years the top of the South Uncanoonuc Mountain has been maintained as an accessible area for viewing the greater Manchester area from the elevation of 1320 feet. The picnic area has been enlarged, additional tables have been set up and more are to be added. The perimeter road has been graded with 14 loads of gravel. A change in the ownership of the area has held up progress in securing an easement for extensive development of the mountain top as a regional recreational center. This development is planned with the aid of state and federal agencies.

An inventory of the wet lands of the town was completed during the year. As in other towns the preservation of these natural areas from encroaching housing developments, drainage or filling is in the best long range interests of the town. Procuring easements on these wet lands is another project to be undertaken.

The Commission has defined for the natural areas inventory of the State the unusual geologic features of the town. This includes of course, the Uncanoonuc Mountains and other areas such as the tipping rock on Shirley Hill. Tipping Rock is one of six such oddities listed in the state inventory.

As the 1972 Town Meeting approved the designation of Shirley Hill Road and Ferson Road as scenic roads under the provisions of the 1971 statute on scenic roads, these roads will be provided with suitable markers calling attention to the fact that no trees, stone walls or other changes in the road may be made without approval of Planning Board and Selectmen.

The Commission is alert to the problem that

might arise should the proposed gravel hauling through the town from New Boston to Massachusetts materialize. Mobilization of funds and citizens to combat such a threat to the peace and well being of the town are planned.

During the year the Public Service Company of N.H. offered the small island off West Union Street to the town. The offer was accepted by the Conservation Commission and some work clearing up the island as a picnic area is to be done.

Again this year a special article for the 1973 Town Meeting Warrant will be sponsored. This would provide for the accumulation of funds for purchase at a future date of land or property that should be acquired in the best interests of keeping Goffstown green. Participation and suggestions for the furtherance of the objectives of conservation are welcomed by the commission.

G. Aimo, Chairman  
R. Ducharme  
C. Hecker  
K. McRae  
A. Wakefield

# PLANNING BOARD

## PLANNING BOARD REPORT 1972

Looking over reports of past years we find ourselves in the position of recommending the same things we have been recommending since 1965.

Meeting every other week we deal with subdivisions — inquiries from citizens wishing to sell or transfer land — occasionally a proposal for multiple dwelling units crosses our desk for analysis and discussion. Though we feel that a certain amount of multiple housing would be an asset to the town, we have yet to succeed in having a development accepted.

Two of the problems the town has ignored are the rectifying of the poor sewer conditions both in the Village and the Pinardville area plus the extension of water mains in the Pinardville area. Happily the return of funds from the Federal Government is permitting our present Selectmen to pursue the expansion of Water mains.

The Sewer problem remains with us and the cost keeps rising astronomically from year to year.

In our report to the town in 1965 we recommended the adoption of a building code and the hiring of a building inspector. The town has not yet seen fit to adopt this measure but since we see the constant need for adoption we keep recommending this year after year. Let us hope that it will not take a catastrophe to bring the need to everyone's attention.

As a step in preventing re-occurring problems the planning board has requested professional help whenever and wherever needed from the board of selectmen. We are looking forward to the day when we will be able to do more planning and less patch-up work.

Roger Aubin, Chairman

# RECREATION

In June of 1972 Dana R. Anderson became Goffstown's first *Director of Recreation*. With seven members of the Recreation Commission: Paul Bedard and Leon Burke (co-chairmen), Clinton Robinson (Secretary), Roland Bernard, Edwin Rivers, Bob Boulter, and Lionel Cullerot; the community began receiving a well-rounded recreation program.

On June 17th, the summer programs began. The annual Red Cross swimming classes were held at Stark and Roy Pools. The attendance for both pools remained well over two hundred at the close of the classes. Many youngsters learned and enjoyed the activities at each pool due to the excellent instructors which the Recreation Department provided. Other swimming activities for the summer were adult swim lessons, preschooler-infant lessons, synchronized swimming, aquanastics for ladies, swim teams, swim meets, and water days.

Highlighting the playground activities were the music festival and the night-time movie "The Absent Minded Professor." Both activities served close to two hundred Goffstown Residents.

The Recreation Department had many activities in 1972, however, the most outstanding program under the Recreation Department was the "People's Playhouse." "See How They Run," "Winnie the Pooh," and "Comedy Tonight," were the plays offered by the "People's Playhouse."

The Recreation Department wishes to thank all performers and spectators for making "The People's Playhouse" a success.

On September 16th, the Recreation Department sponsored "Goffstown Senior Citizens Day." The Goffstown Police escorted a caravan of cars in a parade to Pinardville and back. At Barnard Playground, a wealth of talent was on display in the form of arts and crafts all made by the Senior Citizens themselves. Games were played, a white elephant table, softball and whist, along with pop corn and soda for all present. A delicious turkey dinner topped off the day followed by a movie and a sing-a-long.

Other fall and winter programs offered by the department were Pee Wee Soccer, Adult and Children's Dog Obedience, Horseback Riding, Adult touch football league, Indoor women's tennis classes, Adult co-ed volleyball, Adult men's basketball, Women's yoga, Female gymnastics, Pee Wee basketball Clinic and league, and many more programs.

The Recreation Department wishes to thank everyone involved in the 1972 year.

Looking ahead to 1973:

The Recreation Department has a new home. The Old Blue Goose is now the Recreation Center. The building has a new ceiling, painted walls, polished floor, and the Director of Recreations office. With the new location and the "new" building, many more activities will be held.

Landscaping will be continued at both Roy and Barnard Playgrounds.

Hopefully an outdoor hockey program will highlight 1973.

## MANCHESTER BOYS' CLUB, INC. Pinardville Clubhouse

The Pinardville Clubhouse of the Manchester Boys' Club at 29 Glenridge Ave. has been offering its programs and services to the boys of Goffstown and neighboring communities since February 1971.

The Club is open to any boy between the ages of 7-18 years. He may join by filling out a membership application and paying an annual membership fee of \$1.50-\$2.50 depending on his age.

The Clubhouse consists of a gymnasium, locker and shower-room, large gamesroom, clubroom and library and an arts and crafts shop. The program is divided into four areas; health, physical education, social, cultural and recreational, education and camp. Each area has a variety of activities based on interest studies and what the boys want and what they should have. All activities are supervised by a qualified and trained staff. Your contribution to the United Community Service Campaign helps support the program and services offered at the Pinardville Clubhouse. 75% of our operating funds come from the annual U. C. S. campaign.

The annual membership of the Pinardville Unit was 465 boys. Of these 372 came from the Town of Goffstown. There was a total of 22,464 who attended during the year which gave us an average daily attendance of 104. Needless to say, on our busy days we have well over 200 boys in attendance. In our health and physical education activities we had a participation of 21,644 boys. In the social, cultural and recreational program we recorded 29,329 boy participation and our educational activities had 9,345 boys involved. In addition a number of our Pinardville Clubhouse members attend our Camp Foster Day Camp in Bedford, N. H.

This year we anticipate serving more youngsters from Goffstown because we are offering bus transportation from the Maple Avenue Elementary School every Monday, Wednesday and Thursday afternoons at 3:00 P. M. The bus leaves the clubhouse at 5:00 P. M. for the return trip to Maple Avenue Elementary School.

Mr. Earle R. Girroir, the Pinardville Clubhouse Unit Director, extends an invitation to all residents to visit the boys and their club. For additional information you may call 668-3141 after 1 P. M.

# PLANNING COMMISSION

## REPORT OF THE SOUTHERN NEW HAMPSHIRE PLANNING COMMISSION

The past year was especially significant for the Southern New Hampshire Planning Commission and its municipal members. A series of important advances were noted which will hopefully change the future complexion of the regional planning program and produce tangible benefits for all the participants.

### Metropolitan Affairs

Perhaps the most significant achievement of the Commission during 1972 will later be recognized as the "turning point" of regional planning in this area.

Your planning Commissioners determined that implementation of the various regional programs and recommendations could not be readily achieved by an advisory body. The Commission held a series of Elected Officials meetings involving Commission representatives, Selectmen, Aldermen and the Mayor of the City of Manchester to overcome this handicap.

Commission programs were reviewed; priority issues of mutual concern were established; and preliminary steps taken to hopefully create inter-municipal agreements implementing regional water, sewerage and solid waste management proposals.

These meetings set a precedent in the sense that planning and elected officials from throughout the area are now meeting together in support of one another.

The Commission will continue to encourage this forum for inter-municipal cooperation to improve communications and understanding among elected officials; to set areawide goals for mutual benefit; to provide the guidance necessary for the formulation of policy decisions; and to implement regional planning programs.

### Goffstown Representatives

Mr. Lawrence W. Shirley, a Goffstown representative to the SNHPC from August 1966 until his resignation in March 1972 was the recipient of the first annual Andor J. Staby Memorial Award "for outstanding service." At the time of his resignation, Mr. Shirley held the office of Vice-Chairman of the Commission and served as a member of the Executive Committee. Mr. Roger Aubin, Chairman of the Goffstown Planning Board was named by the Board of Selectmen to serve the unexpired term of Mr. Shirley.

Mr. Roland Barnard, another original member of the SNHPC since 1966, also resigned during the year. The Board of Selectmen appointed Mr. Arthur Rose, Planning Board member and Chairman of the Goffstown Sewer Commission to replace Mr. Barnard on the regional board.

### The Year Ahead

1973 regional planning programs will be initiated to reflect the priorities established by your representatives. The Commission will continue to support local management capabilities by developing back up data and providing technical services required by local decision makers.

### Areawide Certification

In December, notification was received from the U. S. Department of Housing and Urban Development that "the Southern New Hampshire Planning Commission has been recertified under the current areawide planning requirements of the Water and Sewer Facilities Grant Program for Areawide Planning Jurisdiction and Organization, and Areawide Comprehensive Planning and has received initial certification for Areawide Water and Sanitary Sewer Facilities Planning and Programming." In short, we have established each member's eligibility to apply for Federal financial aid to develop and/or improve public water and sewerage services — two high-priority concerns within the region.

### Commission Staff

During the past year your Board of Commissioners hired two additional staff members bringing to five the number of full-time professionals now available to deal with regional and local planning problems.

### Local Planning Assistance

Mr. James Tethers, Assistant Director, continued to meet on a regular basis with the Goffstown Planning Board to provide technical assistance with developmental problems and coordinate local planning activities with metropolitan affairs.

At twenty-eight Board meetings, fifty-eight Preliminary and thirty-one Final Plan reviews were conducted. In addition, numerous requests for variances were forwarded by the Board of Adjustment for review and comment.

Administrative and technical services provided included:

- subdivision site inspections
- subdivision plan review and recommendations
- preparation of minutes and correspondence related to Planning Board meetings
- preparation and review of proposed amendments to Subdivision Regulations
- clarification of state regulations
- update of Planning Enabling Legislation
- update and preparation of Zoning Map

### Regional Planning

The SNHPC worked to relate activities of the Goffstown Planning Board and Sewer Commission to regional, state and federal agencies.

SNHPC programs of regional concern completed during 1972 were:

- Regional housing report
- Regional land use plan
- Update of the metropolitan transportation study
- Establishment of a forum of local elected officials
- Inventory of storm drainage problem areas
- Inventory of public facilities and services
- Assessment of solid waste management practices

# BOARD OF ADJUSTMENT

In the best interests of the people of this town, and with foresight to future development we have heard fifty one (51) appeals seeking variances and exceptions, forty one (41) of which were granted and ten of which were denied. Five re-hearings were granted causing delays in building permits. These primarily due to insufficient detail to specifications, plot plans, etc. Copies of zoning ordinance are available at the town office for reference or purchase.

We have put in many hours of investigation, planning and coordination with property owners and developers, for the betterment of our existing properties. Being a suburban community we have numerous growing pains, present sewage system capacity is inadequate for future development and drainage problems limit various developments. Progress is inevitable but can be regulated. Your support of changes and updating our ordinance will help to regulate our rapid growth.

Your sustained interest and participation at hearings to keep abreast of developments is appreciated and all suggestions gratefully received.

Generally scheduled hearings are held on the first Wednesday of each month at the Town Hall. Special hearings as required will be published.

Richard I. Barnard, Chairman  
W. Wright Danenbarger, Clerk  
Edmund Neveu  
Theodore J. Rohr  
Helen Miller

Paid to the Town of Goffstown \$8,818.58

## ACCOUNTANT'S OPINION

To the Board of Selectmen  
Goffstown, New Hampshire

We have examined the balance sheet of the various funds of the Town of Goffstown as at December 31, 1971 and the related statements of operations for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of the various funds of the Town of Goffstown at December 31, 1971 and the results of their operations for the year then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a basis consistent with that of the preceding year.

N. F. Bigelow,  
Certified Public Accountant

May 3, 1972

Henry Burnham	Term Expires 1977

## RECORD OF ANNUAL PRECINCT MEETING

March 13, 1972

The Annual Meeting of the Goffstown Village Precinct was held at the Goffstown Junior High School.

The meeting was called to order at 7:30 P.M. by the Moderator, Gardner Lamson.

It was voted to dispense with the reading of the warrant and take up each article in order.

### Article I

Gardner Lamson was nominated and elected to the office of Moderator and took oath of office in open meeting. Janet Poore was nominated and elected to the office of Clerk and took oath of office in open meeting.

### Article II

Water Commissioner for five years — Henry Burnham was nominated, elected, and took oath of office in open meeting.

### Article III

It was voted to act favorably in accepting the report of the Budget Committee of Thirty-eight Thousand Nine Hundred (\$38,900.00) Dollars and appropriate same.

### Article IV

It was voted to allow the Board of Water Commissioners the right to hire money in excess of three Hundred (\$300.00) Dollars due to any emergency.

## Article V

Laurence Whitten, Chairman, reported on all Precinct activities in the past year and expressed appreciation to Superintendent, Charles Gutterson and his men for outstanding work. The audit report was given.

The Meeting adjourned at 7:50 P.M.  
Janet Poore, Clerk

## WARRANT FOR ANNUAL PRECINCT MEETING

March 19, 1973

To the Inhabitants of the Goffstown Village Precinct qualified to vote in Precinct Affairs.

You are hereby notified to meet at the Goffstown Junior High School in said Goffstown in said Precinct on Monday, March 19, 1973 at 7:30 o'clock in the evening to act upon the following subjects:

### Article I

To choose all necessary officers for the ensuing year including a Moderator and Clerk.

### Article II

To elect one (1) Member of the Board of Water Commission for five (5) years.

### Article III

To see if the Precinct will vote to accept the report of the Budget Committee of Forty-four Thousand Nine Hundred (\$44,900.00) Dollars and appropriate same.

### Article IV

To see if the Precinct will vote to allow the Board of Water Commissioners the right to hire money in excess of Three Hundred (\$300.00) Dollars due to any emergency.

### Article V

To hear the reports of the various Officers of the Precinct and pass any vote thereto.

## Article VI

To transact any other business that may come before said Meeting.

Given under our hand and seal this fifth day of February, 1973.

## SEWER COMMISSION 1972 Report

Thanks to the voters at our last Town Meeting we have completed our study of the Pinardville sewer system and, as suspected, we have many problems similar to the problems present in the Village system. A copy of the Pinardville report as well as the Village report are on file in the Selectmens' office for review by those who may be interested.

Because Goffstown has done its homework we are now ready to apply for Federal and State Aid for assistance in separating our now combined storm and sanitary systems. Our applications will be processed through the Southern New Hampshire Planning Commission.

Our Problems within the existing systems and

treatment plant are many and hopefully we shall be able to continue to up-grade our system and add to it. Many requests are made to obtain public sewer service by those who are close to either the Pinardville or Village systems, however existing conditions are so poor that extensions can not be made.

We shall continue to strive towards providing public sewerage to as many tax payers as possible. To this end the Commission welcomes your suggestions and assistance.

Respectfully,

Arthur W. Rose, Chairman  
Albert Gilbert  
Marcel Genest

10 YEARS OF VITAL STATISTICS 1962-1972  
FROM THE TOWN CLERK'S RECORDS

## 34

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the town of Golfstown qualified to vote in District affairs:

You are hereby notified to meet at the Goffstown High School in said District on Tuesday the 13th day of March, 1973, at eight o'clock in the evening to act upon the following subjects:

1. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.

2. To hear the reports of Agents, Auditors, Committees or officers chosen, and pass any vote relating thereto.

3. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

4. To see if the District will vote to authorize the School Board to make application for and to accept on behalf of the District, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or United States.

5. To see if the Town will vote to direct the School Board and Superintendent of Schools for the Town of Goffstown to administer this year's (1973) and all future budgets for all departments in the School system on a line item basis. (Submitted by petition)

6. To see if the district will appropriate \$8,992.50 to complete the loaming and seeding of the Athletic Field at Goffstown High School, and to determine whether such appropriation shall be raised by borrowing or otherwise, and to take any other action relating thereto. (Submitted Without Recommendation)

7. To see if the District will vote to raise and appropriate the sum of \$8,016.48 for repair of the Maple Avenue Elementary School roof. (Recommended)

8. To see if the District will vote to raise and appropriate the sum of \$6,000.00 for paving at the Bartlett and Maple Avenue Elementary School. (Recommended)

9. To see if the District will vote to raise and appropriate the sum of \$2,452.37 for repairs on the Upper Elementary roof. (Recommended)

10. To see what sum of money the District will vote to raise and appropriate for the support of schools for the payment of salaries for school district officials and agents and for the payment of the statutory obligations of the District.

- Given under our hands at said Goffstown this 5th day of February, 1973.

Emile Bourque  
W. Wright Danenbarger  
George Hebert  
Robert Merrill  
John J. Middleton

**SCHOOL BOARD**

## GOFFSTOWN SCHOOL DISTRICT Annual School Meeting

March 14, 1972  
MINUTES

Regular meeting of the Goffstown School District held at the Goffstown High School Auditorium. Meeting called to order by Moderator Aime Paradis at 8:00 P.M. Meeting opened with a pledge of allegiance to the flag.

Certificate as to the posting of the warrant was read. It was moved and seconded that the reading of the warrant be omitted and that we act upon each article as it appears on the warrant. CARRIED.

Article 1 — Moved by Danenbarger and seconded by Bourque that we accept this article. CARRIED.

Article 2 — Moved by Bourque and seconded by Danenbarger to accept this article. Mr. Carlisle of the Kindergarten Study Committee read the report of his committee (record on file with the School District Clerk). Moved by Hambleton and seconded by Nickerson that the committee be thanked and report be placed on file and committee be discharged. CARRIED.

Article 3 — Moved by Sterling and seconded by Stanhope that State Tax Commission audit the Goffstown School District accounts. CARRIED.

Article 4 — Moved by Merrill and seconded by Stanhope that the District accept any and all grants from the State of N.H. and/or United States. CARRIED.

Article 5 — Moved by Hebert and seconded by Carlisle to accept the article as read. CARRIED.

Article 6 — Article could not be acted upon as it was not recommended by the Budget Committee.

Article 7 — Article could not be acted upon as it was not recommended by the Budget Committee.

Article 8 — Moved by Welch and seconded by Serieka to accept. Article CARRIED without dissent.

Article 9 — Serieka moved and seconded by Bourque to approve article. After some discussion, the article LOST by a standing vote.

Article 10 — Stanhope moved and it was seconded by Hambleton to approve this article. After some discussion the article was amended to eliminate the \$1,000 sum by Stanhope and was seconded. The amendment was voted on and CARRIED. After more discussion, the article was amended again by Wheeler and seconded by Burke. The second amendment CARRIED by voice vote. The article to be voted upon now as amended is as follows: "To see if the District will vote to appoint a study committee for the purpose of determining the feasibility of operating the Goffstown Schools on a twelve-month basis and to instruct this committee to present a proposal with appropriate costs to the voters of the District no later than the 1974 School District Meeting, and that should this committee recommend an expenditure, that it be submitted by a separate special article". The article with amendments CARRIED.

Article 11 — Article was moved to be dismissed by Burke and seconded by Hambleton. Article was DISMISSED by voice vote.

Article 12 — Stanhope moved and was seconded to accept the article. After some discussion on the article, it was DEFEATED by a voice vote.

Article 13 — Moved by Bourque and seconded by Burke to raise and appropriate

\$1,957,451.72 for the support of schools. Gerry Aubin moved and seconded by Mrs. Peter Stanhope to add \$7,500 to the appropriation to a total of \$1,964,951.72 to help with dual enrollment of high school students in Manchester high schools. Discussion ensued and amendment was DEFEATED by voice vote.

Tyler Carlisle moved and was seconded to add \$24,268.32 to the appropriation to a total of \$1,981,720.04 for hiring new teachers, etc. Discussion ensued and then motion was DEFEATED by a voice vote.

Moved by Roland Bernard and seconded to reduce budget by \$190,000 to a figure of \$1,767,451.72. After some discussion and motions to restore and limit debate, the Bernard amendment was voted upon by checklist and a ballot vote. No = 135; Yes = 173.

Vote on article as amended by a voice vote CARRIED.

Danenbarger moved and was seconded to adjourn to March 21, 1972 at 8:00 P.M. Motion DEFEATED by a standing vote.

Meeting adjourned at 12:45 a.m., March 15, 1972.

Respectfully submitted

Lawrence A. Emerton  
School District Clerk

A True Copy of Record — Attest:

Lawrence A. Emerton  
School District Clerk

Maple Avenue Elementary

## GOFFSTOWN SCHOOL DISTRICT

Report of the Superintendent of Schools  
to the School Board and Citizens of Goffstown.

I herewith submit my eleventh and final report relative to the schools of Goffstown.

The Goffstown School population continued its growth, with a September 1972 enrollment of 2382 students with the following distribution:

Grade	Avenue	Bartlett	White	Jr. High	High	Total
1	82	67				
2	98	61				
3	90	64				
4	110	75				
5	89	62				
Special	10					
6			162			
7				242		
8				224		
9					219	
10					240	
11					209	
12					161	
Dual Enrollment		117				
	479	446	162	466	829	2382

### Growth of the Goffstown School Population Total Enrollment Grades 1-12

1962-63 - 1145	1966-67 - 1653	1970-71 - 2049
1963-64 - 1309	1967-68 - 1743	1971-72 - 2308
1964-65 - 1318	1968-69 - 1900	1972-73 - 2382
1965-66 - 1520	1969-70 - 1960	

### Elementary School Minimum Standards

The New Hampshire State Board of Education has developed a program of Minimum Standards to be applied to all public elementary schools in New Hampshire with September 1, 1972 as the effective date for local schools to begin implementation of "Minimum Standards and Recommendations for New Hampshire Elementary Schools for School Approval, K-8."

The purpose of Minimum Standards is to provide for planning, organizing and establishing a minimum standards program for public elementary education to; (1) improve the quality of learning and teaching in New Hampshire and (2) to see that each child has an equal opportunity for learning.

The goals of the School Board of Education Minimum Standards Project are to require:

1. Public elementary schools to develop a written statement of philosophy.
2. Schools to develop organizational patterns that best meet the needs of all children.
3. Sound administration and supervision in the elementary school.
4. A broad well-balanced elementary school curriculum.
5. Well-qualified and sufficient teaching personnel to meet adequately the needs of all the children.
6. Sound in-service education programs for all teachers.
7. Good guidance and counseling services in all public elementary schools.
8. Good library facilities and services in all public elementary schools.
9. Functional modern elementary school facilities.

John J. Economopoulos, Consultant, State Department of Education Elementary School Services states that elementary school self-evaluation is a design for the improvement of education. It is an opportunity to reveal and identify in a more objective manner the unique strengths and existing weaknesses of the elementary school program. It is a basis for (1) maintaining that which is good; (2) terminating that which is poor; (3) modifying that which can be improved; and (4) adding that which is needed. It is an effort to inform the community, the staff, and the school board about the quality of education being offered and supported in the local elementary schools. Also, it is an opportunity to make a thorough and unhurried analysis of the entire school program.

The local school philosophy should be developed cooperatively with the staff and community. It should have the formal approval and support of the local school board. This philosophy should serve as a guide to those interested in self-evaluation or comprehensive evaluation from an outside source. It should be continually studied, analyzed and improved.

Recommendations include:

1. In the self-contained classroom and pupil-teacher ratio should be 20 to one or less in grades 1-2.
2. In the self-contained classroom and pupil-teacher ratio should be 25 to one or less in grades 3-8.
3. Individualized learning for all children, K-8, should be encouraged by innovative organizational and instructional patterns.
4. The assignment of teachers should consider children's needs and the specialties and interests of the teachers.
5. All schools should develop the organizational patterns that best meet the needs of all children, as determined by the local school district.

Curriculum: Art, health, language arts, mathematics, music, physical education, science, social studies shall be taught in the elementary school. Services to be provided include: Library Services, Guidance Services, and Health Services shall be provided for all children. Special Education Services shall be provided to all children who differ from the average to a significant degree in intellectual, emotional or physical characteristics. Modern Foreign Languages and Summer School Programs are recommended.

The Elementary School should include a Kindergarten with a pupil-teacher ratio of 20 to 1 or less and at least a 1200 square foot classroom. Library Services Minimum Standard Requirement:

### 1. General Provisions

- a. Each school shall provide library services for children and teachers, with responsibility vested primarily in one qualified member of the school staff.
- b. In schools with limited enrollment and facilities, centralized library services and personnel may be provided on a district or supervisory union basis.
- c. Adequate library space shall be provided in new buildings or additions.

### 2. Space

- a. Schools enrolling fewer than 150 children shall provide library space.
- b. Schools enrolling 150-300 children shall provide at least 1000 square feet of library space or one regular classroom.
- c. In schools enrolling 300-500 children, the minimum space shall be 2000 square feet, or the size of two regular classrooms.
- d. Schools enrolling 500 or more children should allow 40 square feet per child for 10% of the enrollment.

### 3. Staff

- a. A certified librarian shall be provided to *maintain and supervise library services* and to train supportive staff in each school.
- b. Each elementary school shall provide for an elementary librarian in a school with an enrollment of 800 children.
- c. Trained supportive staff shall be provided in all schools, as needed.

### 4. Materials Collection

Teachers and pupils shall have access to a basic collection of 6000 books.

### 5. Expenditures

For maintaining library resources, printed and non-print materials, a minimum of \$5.00-\$10.00 per child shall be budgeted and expended annually.

#### Staff Development for Educational Personnel

Goffstown is engaged in a plan of staff development for all educational personnel as directed by the policy adopted by the State Board of Education.

The purpose of staff development in New Hampshire is to improve the learning experiences of students. The professional educator sees education as a life-long process and recognizes his own obligation to plan for self-improvement, thereby enriching the learning experiences of his students.

The New Hampshire State Board of Education at its June 16, 1971, meeting approved as official policy the state-wide plan for staff development as recommended by the Professional Standards Board. Effective July 1, 1975, all Supervisory Unions and/or school districts are to have developed, in accordance with the adopted policy, three-year staff development plans. Supervisory Unions or school districts are expected to submit to the Office of Teacher Education and Professional Standards by July 1, 1973, a report of their progress in the creation of their continuing education programs.

Supervisory Unions or school districts are urged to utilize the resources available to them through the New Hampshire State Department of Education to provide assistance in the formation and ongoing evaluation of local staff development plans.

The Guidelines for Staff Development in New Hampshire as adopted by the State Board of Education assume that the professional development of every educator is a life-long process and is an inherent ingredient of his role as an agent for improving the quality of life in society.

The Staff Development Guidelines are based also on the assumption that continuing education is multifaceted and offers a wide variety of options for professional development. In addition, the policy centers on the notion that the most meaningful in-service education emanates from the needs as perceived and developed by educators, students, and the community in a cooperative, supportive fashion rather than generalized state-wide requirements.

The Staff Development Guidelines are process oriented, and as such, are open to change and modification based upon experience people have in the development and implementation of programs.

In conclusion, the State Board of Education through the Staff Development Program is attempting to provide an atmosphere in which the function of continual professional growth of New Hampshire's educators is given a central role in the improvement of education in the State.

Leon "Skip" Cote, Bartlett School Principal.

#### Bartlett Elementary School

Leon Cote, Principal, reports that Bartlett School is presently very crowded and in order to accommodate the increased number of students, a third fourth grade teacher had to be hired to effectively teach the many fourth grade students. This caused a problem, in that we were using all available classrooms.

To accommodate the third fourth grade, the open classroom first grade area housed in the lower level of the old building was rearranged into four classrooms and now houses three first grades and one second grade. The Remedial Reading Teacher is now stationed in the small library room next to grade one. The library is presently in the hallway of the upper level in the old building. With the fifth grade moving next fall to the Middle School (present Junior High School), many of these housing problems can be resolved. The faculty has adapted to necessary changes due to space or lack of funding and are to be commended.

Next fall, Bartlett School will have grown to three classrooms of each grade one through four. Each grade will be self contained and controlled heterogeneous grouping will be used in determining the classroom assignments.

Our active Bartlett School Mothers Club continues to man the library and purchase many needed items for the School. The fifth grade trip to Sturbridge Village is completely financed by the Mothers Club and is most appropriate because grade five studies this aspect of our country's development in their social studies program.

The lower level of the old building functions exceedingly well without classroom partitions. This open area gives an opportunity for the teachers to work more closely with each other and with the children.

The remedial reading program at Bartlett School functions basically in three areas. The first is the supervision of the classroom developmental reading program through observation and teacher consultation. Each teacher is scheduled for an observation-consultation period with the reading teacher once each week. During this time reading problems are discussed and remedial suggestions are made for both individual students and the entire class. The purpose of these visits is to keep the reading program consistent with the objectives of effective education and to maintain consistency within the grades.

Secondly, the program is designed to provide the classroom teacher with a resource person to aid in compiling needed materials, both remedial and advanced, to be used in addition to the regular Scott-Foresman reading program. The materials are designed to re-view or re-teach skills students have not mastered in the course of the regular lesson. An effective audio-visual approach is the cassette tape recorder with taped lessons and work sheets. The lessons are used with small groups of students in their regular classrooms as either a review or re-teaching exercise. The reading teacher also gives demonstration lessons in reading and phonic skills as part of the resource program. A reading workshop for each grade level dealt with methods of teaching specific reading skills at each level.

The reading teacher is a resource person diagnosis. This diagnosis is done on both an individual and group basis. The results are then compiled and appropriate remedial plans are made and materials supplied to the classroom teacher. Diagnosis also includes the administration of Scott-Foresman unit tests, yearly. Intelligence Quotient (I.Q.) and Stanford Achievement Tests.

Finally, the reading program is concerned with individual and small group tutoring of children found to be deficient in reading or learning skills. Students are scheduled for the reading room singly or in groups as large as four for remedial work based on their diagnosed needs. The time per week varies with the age and the ability of the child with the sessions lasting from 15 to 45 minutes, two or three times a week.

It is necessary to indicate at this point that the remedial program cannot be concerned with reading problems. In many cases, the cause of the reading disability is a neurologically based learning disability and as such necessitates more specific evaluative materials and remedial procedures than are generally available at Bartlett School. Mr. Cote suggests that more investigation be done in this area to better meet the needs of both students and teachers.

#### Maple Avenue and White Schools

Mr. William Brendle, Principal of the Maple Avenue and White Schools, states that our Special Class this year is in the process of reorganization. The students in this class will be assimilated into regular classrooms at levels where they may be able to operate for part of their school day. This practice allows time for the special class teacher to work with students who cannot function in the framework of a regular classroom.

The class is being evaluated by the State Department of Education whose special education personnel are most favorable to the idea of partial assimilation of these students when feasible in regular classrooms. We were informed by the educator that what we are in the process of doing is a highly recommended practice in special education. It is felt that when the students can function in any capacity in a regular classroom situation it is most advantageous to place them accordingly.

When the evaluation of the individual students has been completed we will then be able to restructure the class completely. At present as the individuals are evaluated we are setting up new programs for each student. This restructuring in the future will require different types of instructional materials. The need will be for materials with which students can work at their capacity on an individualized basis.

Maple Avenue personnel have consulted with the Philbrook Center in Concord and the Manchester Rehabilitation Center for their professional advice regarding testing and teaching materials to be used with these children.

With these changes we feel our class will be able to more efficiently service the students we have in special education.

#### Goffstown Junior High School

Emil Nawoj, Junior High School Principal, states that the challenge of accommodating students in inadequate facilities is being met head on. Four hundred sixty six pupils are presently enrolled in grades seven and eight. There have been as few as four hundred sixty two pupils and as many as four hundred seventy one pupils at one time or another this year. This impact of youngsters and no room to expand has presented the Junior High School staff with a pupil load of one hundred sixty five to one hundred seventy pupils each. Class sizes range from a low of thirty pupils to as many as thirty six, and this has to be accomplished in classrooms that were built to accommodate not more than thirty pupils. All available space is utilized, therefore, it is impossible for additional programs to provide these children with the kind of learning opportunities necessary in this modern age. Although no new programs are possible, Mrs. Carolyn Somma has added communication skills in her English classes which has rekindled interest in this area. The three tracks in mathematics are providing different ability and interest groups the opportunity to achieve to their fullest. In

science we have had to resort back to "look and listen" rather than "touch and do" methods because the size of the classes does not allow the necessary space for equipment to be used by the pupils.

Mr. Nawoj adds that everyone is looking for the day when the new Junior High School addition to the Goffstown High School will be opened and the proposed program of studies implemented for the Junior High pupils.

#### Goffstown High School

Robert Moulton, Principal, states that for the annual high school report this year it might be appropriate to forego submission of information relative to guidance, library and student services and activities and to focus on plans and hopes for the school year 1973-74.

The opening of our new facility promises to be an exciting event for staff and students. Administrators and teachers have been at work for some time in planning for the new organizational arrangement that will be in effect when the junior high moves into the present high school plant. For sometime now we have been distressed that the junior high school program, limited severely by space problems, has been something less than that required for approval by the state. Curriculum plans call for the addition of art, music, health and foreign language courses to the junior high program. Changes are also being planned in content for existing junior high curriculum.

Changes in the high school course of studies designed to better meet needs of students and to give consideration to pupil interest factors include more English electives, choices in U.S. History to replace the required yearly course in that subject, additional areas in the industrial arts and classes to assist students planning to become immediately employed at the completion of high school programs.

In addition to providing desperately needed space, the new facility will allow for many exciting educational projects. The new media center provides the opportunity for more efficient use of audio visual aids individualized and small group instruction, and for a study area that provides for an esthetic as well as a desirable learning atmosphere. Space afforded by new science rooms will allow for increased use of equipment and should do much to improve an already fine area of instruction at Goffstown High School. Our large group instruction area and our lecture room promise to receive great use in academic as well as student activities. Additional space for use in the business and industrial arts programs allow for expansion of offerings within these disciplines. The new music suite is designed for full implementation of our planned music program. A special education area will allow for the development of meaningful educational program for exceptional children.

Mr. Moulton observed that he would be remiss if, in addition to presenting optimistic plans and exciting accomplishments, he did not comment on his concerns. The Junior-Senior high school programs will be improved and will better meet needs of students next year. There is, however, a dire need for an adequate provision for a certain segment of the student population, namely, Career Education.

#### Career Education

For many years, school district funds have been disproportionately expended much to the disadvantage of youngsters not planning a college experience. In fairness, it should be noted that we do prepare business students well and these youngsters can go into the job market immediately after high school but here, it seems, our efforts end. For other non-college youngsters we offer "general" programs that prepare little for the future. We rationalize, really, that knowledge for its own sake is valuable. One cannot help but wonder why difficulty is experienced when the suggestion is made that more financial effort be expended in behalf of students planning to become a labor statistic immediately after high school. This is especially the case when one realizes that only three of ten will go on to college in search of a baccalaureate degree and only two will achieve it. Barring business students, few high school graduates are prepared for occupational fields. This situation should change and our objectives for the secondary school should be re-evaluated. The objectives of every high school should be (1) to prepare students for a continuation of formal education, (2) to provide exploratory experiences as we do in industrial arts, business and home economics as aids in making career choices, (3) train students for immediate employment upon graduation from high school. With these objectives in mind, the following career education programs are proposed for Goffstown: a17,

#### 1. Graphic Arts

Newly purchased equipment allows for the teaching of units in the graphic arts as part of the industrial arts program. Areas which may be covered are letter press, offset, silk

screen, and duplication. Expansion in the ownership of equipment will allow for a somewhat thorough training in the graphic arts. Involved students as a part of a career education program would be assigned extended periods in this course plus occupational English, shop mathematics and electives within the existing curriculum.

#### 2. Auto Mechanics

With the addition of a new auto shop, we plan next year to expand our industrial arts power mechanics program into a more complete auto mechanics course. All that would be needed to make this a career opportunity really is to follow that course outlined for the graphic arts program noted above. Little would be needed by way of equipment if teacher time were made available.

#### 3. Carpentry

All that would be needed to institute a career course in carpentry is teacher availability and materials. It is conceivable that actual construction projects could take place to be carried on possibly with the advice and cooperation of local contractors.

#### 4. Clerical Practices

We now have equipment necessary to carry on a clerical practices program. With teacher availability and extended class periods in this course plus other classes offered within the business curriculum, such a program would be comparatively easy to institute.

#### 5. Food Services

A collaboration of the home economics department and the cafeteria provides opportunity for an area of career training which will be of value and probably meet with great favor among a substantial number of our students. Some plans already made, call for various types of instructional areas which will meet needs of students of different abilities within the food services program. Here again, the program will be complimented with courses of applicability.

All of the above career programs are now in the planning stage and with support could be implemented as early as next September.

Career opportunity programs should be made available to any interested adult in the community. The Goffstown School Board recently named an Adult Education Committee to fully study the establishment of an adult education program in the immediate future.

Mr. Moulton stated that his biggest concern relates to near disastrous cuts that were made in the 1972-73 school budget. A failure to supply needed funds necessitated the crowding of an overload number of students into the Junior High building forcing the scheduling of large classes and heavy teacher loads and, at the same time, a limitation of offerings. On the high school level it meant cutbacks in program and denial of opportunities to a rather large number of students. Little money has been available to enrich or to improve programs. The library book purchasing program has been especially hard hit, to the extent that we will move into our new media center with approximately half of the books recommended for the number of students we will service. All areas have been penalized by the austerity budget attitude and our programs have been jeopardized.

Mr. Moulton added that it was his hope that attitudes will change and that the educational needs and interests of the community's children will receive first consideration when school affairs are decided this year. In his opinion, it is indeed, a time to reorder our priorities giving prime attention to the future of our children.

#### State Dual Enrollment Plan

The Goffstown School Board voted to discontinue the Dual Enrollment Program with St. Edmunds School effective June 1973. Approximately one hundred Goffstown students are enrolled in St. Edmunds School and of whom 65 have been provided with books, supplies and teachers during the 1971-72 and 1972-73 school years in academic courses. If St. Edmunds School were discontinued many of the 100 students would attend Goffstown public schools.

#### Acknowledgement

I wish to extend my sincere appreciation for the support and cooperation extended to me by the principals, teachers, pupils, school board and citizens of Goffstown as well as the loyal support of the Supervisory Union No. 19 office personnel, Howard Wagner, Assistant Superintendent of Schools, Wayne Evans, Business Administrator, and Mrs. Ruth Henk, Mrs. Harold Smith, Mrs. C. W. Schricker and Mrs. James Austin of the office staff.

As I retire in June 1973, I will remember forever the courteous, dignified and cooperative manner in which I have consistently been received in Goffstown, Bow, Dunbarton, New Boston and Weare during the last eleven years as your Superintendent of Schools.

Thank you sincerely.

Respectfully submitted,

Ernest Peltonen  
Superintendent of Schools

N. H. Supervisory Union No. 19  
Bow, Dunbarton, Goffstown, New Boston, Weare

## Goffstown Annual School 'Health Report

September 1971-June 1972

Vision test	2872	Hearing	15	Ears-cerumen	12

		Kidney Infection	8	Impetigo	4
First Aids	3644	Orthopedic	3	Ringworm	4
		Nutrition	1	Mononucleosis	3
Received Care:		Hydrocele	2	Dermatitis	
Vision	471	Received Care		Staph Infection	3

Preschool registration was held on April 17th and 18th at the Bartlett School. Forty-six children were registered. The Maple Avenue Elementary School registration was held on May 1st, 2nd, and 3rd with fifty-eight children being registered.

A topical fluoride program was made available through the Goffstown Mothers Club and school health services. This program consisted of cleaning the teeth plus an application of topical fluoride. A referral program was also incorporated with this service. Mrs. Marian Lalime, R.D.H. conducted the program.

All fifth and sixth grade students were given a talk and demonstration on good dental care.

A Crest dental health educational program was conducted in the third grade.

Our cafeteria workers received routine physical examinations including throat cultures, stool specimens and serology.

A menstrual hygiene education program for all sixth grade girls was presented. A film was shown and a discussion period followed.

Educational films on smoking, drug abuse, heart, dental health, and good grooming were shown at appropriate grade levels.

This is the third year that the senior students from the Sacred Heart School of Nursing have been assigned to a school nurse in order to observe the function of the school nurse in the School Health Program.

Students received 22 fractures during the school year. Sixteen students were taken to local hospitals for x-rays. Eight students were treated for concussions.

Three staff conferences with Manchester Guidance Clinic. Four staff conferences with Manchester Rehabilitation Center.

The Health Careers Club at Goffstown High School attended a seminar in Fitchburg, Mass. Fifty-two students attended.

Seven students attended a birth defects seminar at Boston University. These students were members of the Health Careers Club.

All tenth grade students were presented an educational program on venereal diseases. Mr. William Arnold from the Manchester Health Department was present as guest speaker.

Mr. Lloyd Farnum, Executive Director of The March of Dimes, was present for a mother-daughter program on birth defects.

The school nurses assisted in the preschool amblyopic and hearing clinic conducted by both the Pinardville and Goffstown Lions Clubs.

We believe through the active and sincere efforts at school, home, and community can health be promoted, knowledge be extended; and attitudes and behavior of all students be positively directed.

Hopefully, desirable health practices developed in the young will continue beyond formal schooling. This can be accomplished provided we furnish the young with knowledge and foster independence or judgement that will enable them to adopt and engage in desirable health practice throughout life. This is, after all, what education is all about.

Our School Health Services have had complete cooperation from all community agencies, Goffstown Lions Club, Pinardville Lions Club, Goffstown Mothers Club, and the Salvation Army.

We wish to express our thanks to the Superintendent, principals, parents, teachers, school lunch personnel, school board and all FISH members for their help and cooperation. We also wish to thank Georgine Westover for teaching first aid to our high school students.

Respectfully submitted,

Beatrice Bockus, R.N.

Doris Bailey, R.N.

## THE VISITING NURSE ASSOCIATION OF MANCHESTER, N.H.

194 Concord Street  
622-3781

Visiting Nurse Association services are available to Goffstown residents in their homes at no additional cost to the town. This United Community Services association is a home health agency of all ages, regardless of race, creed or ability to pay, who need nursing care or instruction.

Services on a part time basis (with physician's orders) include:

- Skilled nursing care and/or treatment
- Physical Therapy
- Occupational Therapy
- Homemaker Home Health Aide Service

Services at no charge include:

- Maternal and child health guidance and instruction
- Classes for expectant parents (held in Manchester)
- Family health guidance with emphasis on prevention of disease and promotion of healthful living
- Regional immunization clinics yearly

985 visits were made by Mrs. Gage, R.N. and Mrs. Christoph, R.N. to Goffstown residents in 1972.

Three regional immunization clinics for Goffstown and Bedford children were held with 329 children attending.

A diabetic screening program was held in May 1972 for Goffstown residents, sponsored jointly by The Visiting Nurse Association, Lions Club and State Department of Health. 115 people availed themselves of this worthwhile service.

The physician, patients, family or a friend may call The Visiting Nurse Association for services and/or further information at 622-3781 Monday through Friday 7:30 a.m. to 4:00 p.m. Only necessary services provided on weekends and holidays.
